Share Cost price update form

The cost price is the average price you bought your Shares and can be found in the Contract note issued to you.

The cost prices of your shareholding do not carry across from a Broker-to-Broker Transfer or from a result of a Corporate Action e.g., Rights issue, IPO acquired holding etc. The cost price is for your refence to help you better track the performance of your Portfolio.

ACCOUNT DETAILS

Account Number: Account Name:

Designation (if applicable):

Please complete below Cost price table to update your existing Shareholding cost price. Providing the Cost price is optional; however, the shareholding price will be set to NIL if not provided. You can provide this information anytime.

COST PRICE TABLE

ASX code E.g. APT	Security name E.g. Afterpay	Quantity Total no. of Shares	Cost price Average purchase price

Please note: *The purpose of this cost price update is for your reference only to help you better track the performance of your Portfolio. Your tax accountant will require official documentations to calculate your actual Profit & Loss.*

Please email the completed Cost price form to support.shares@gomarkets.com
